MUHAMMAD RASHEL MIA

Email : muhammadrashel2015@gmail.com | Linkedin: muhammad-rashel-mia
Portfolio: muhammadrashelmia.com

Professional Summary

Highly motivated and technically proficient Cloud Engineer with a Master's degree in Electrical & Computer Engineering from Concordia University and a Bachelor's in Computer Science from Daffodil International University. Experienced in cloud infrastructure, distributed systems, and network engineering, with hands-on expertise in AWS architecture and web developing. Skilled in implementing Content Delivery Networks (CDNs), traffic shaping and policing (QoS) in simulated environments, and end-to-end automation pipelines using GitHub Actions. Passionate about designing scalable, fault-tolerant, and high-performance systems for modern distributed environments.

Education

Master of Engineering (Electrical & Computer Engineering)
Concordia University, Montreal, QC, Canada — May 2025

Bachelor of Science (Computer Science and Engineering)
Daffodil International University, Dhaka, Bangladesh — 2020

Certifications

• AWS Certified Cloud Practitioner (2025) — Amazon Web Services

Technical Skills

Cloud & DevOps: AWS (EC2, S3, CloudFront, IAM, Route 53, Lambda, VPC), CI/CD (GitHub Actions), Docker
Networking: TCP/IP, OSPF, QoS, HTTP/2, Differentiated Services, Traffic Shaping & Policing
Programming: JavaScript , Java , Python
Framework : Node.js, React, Tailwind CSS
Other Tools: Linux, Git, MATLAB, Arduino UNO R4, ThingSpeak

Projects

1. Content Delivery Network (CDN) with Multi-Replica Architecture
Node.js | HTTP/2 | React
- Designed and implemented a replicated CDN system with Origin, Controller, and Replica servers.
- Enabled video streaming with load distribution and automatic replica synchronization.
- Integrated secure TLS streaming.

Academic & Technical Interests

Cloud Infrastructure • Distributed Systems • Network Simulation • Internet Architecture • System Scalability • Automation Pipelines
